

to whom it may concern, please be advised that i oppose hr-4026 . My drive to work and pleasure trips have been more enjoyable and more efficient since i installed my x-m radio i actually get traffic reports before i get to a problem unlike before when i used to get reports after i got into a problem , which in today's FUEL ECONOMY THAT SAVES MONEY TO BUY THIS HIGH FUEL i can't believe we are wasting time to vote on this bill . congress should be trying to do something productive. I pay for my XM radio out of approx. 50 people that i know i am the only one i know that has it , there is enough business to go around . please vote against HR-4026 . thank you
